Gasoline and Diesel Consumption

Metric:

Percent Change in Gasoline use from 2000-2010: 5.8%

Percent Change in Diesel use from 2000-2010: -5.31%

Geography:

Upper Valley Lake Sunapee Regional Planning Commission region

Summary:

This metric gives the statewide consumption of gasoline and diesel between 1950 and 2010. The consumption grew immensely until the year 2000, at which point diesel consumption began to decrease, while gasoline consumption remained relatively constant.
